## **INFORMATIVES**

1 The Council works positively and proactively on development proposals to deliver sustainable development in accordance with the NPPF. In this instance, the applicant was advised of the necessary information needed to process the application and, once received, further engagement with the applicant was required and the application was subsequently acceptable.

2 The applicant is reminded that responsibilities to discharge conditions no. 12 and 14 of outline planning permission ref: 17/00471/OUT for this phase remain, regardless of plans/documents that are approved as part of this Reserved Matters approval. It will be particularly important to demonstrate that concerns raised by Landscape, Trees and Ecology as part of this application are fully addressed as part of the discharge of the above conditions.

3 The applicant is reminded that should highway adoptions are pursued with the Local Highway Authority, the Section 38 process will need to be undertaken in addition to any planning approval that may be granted by the Local Planning Authority, and the details of this process. It is recommended to engage with the Hampshire County Council S38 team at the earliest convenience.
