

Amendment to Licensing Committee Papers

The Licensing Committee scheduled for 7 June 2022 is due to consider a request to increase Hart District Council taxi tariffs. Report papers were initially published on the Council website on 26 May 2022.

The Council was made aware that there was an error in some of the appendices. A formula had been miss applied which meant the calculations showed a falling tariff rate for longer journeys and did not reflect the intended fare increase.

This is corrected with appropriate revisions made to the fare proposal option, and relevant Appendices C, H, I and J.

The original report papers published on the Council website have been amended with the revised appendices published on 27 May 2022.
