# Hart District Council

Climate action plan

Thursday 8 June – Climate Change working group

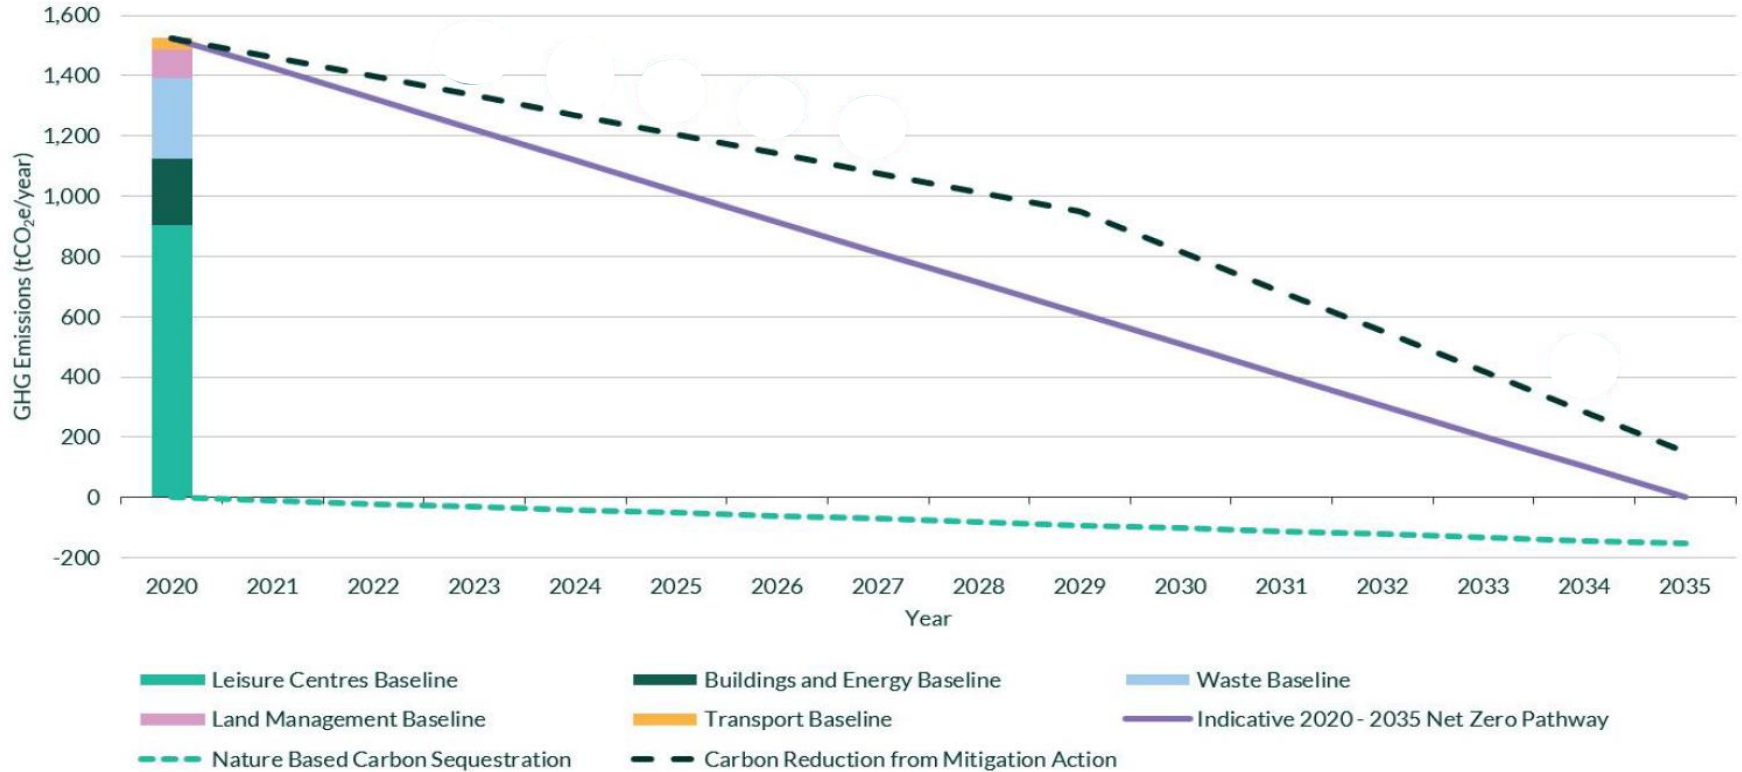

# CORPORATE PLAN OBJECTIVES

2023 - 2027

	Planet	People	Place
Objective	Make all areas directly under the control of the Council carbon neutral by 2035. Carbon neutral district by 2040.	Fair treatment for all, help those in need, and a sustainable economy that makes Hart a great place to live, work and enjoy.	Deliver warmer, better homes in sustainable locations that people can afford to live in.
Four year goals	Establish a clear path to being carbon neutral through the adoption of a costed carbon neutral pathway plan.		

# CARBON NEUTRAL PATHWAY – Own Operations (produced by Eunomia)

# FOCUS AREAS

Buildings	Energy	Transport
<ul style="list-style-type: none"><li>• Operational buildings</li><li>• Leisure Centres</li><li>• Produce decarbonisation plans</li><li>• Fabric first approach</li><li>• Leased buildings</li></ul>	<ul style="list-style-type: none"><li>• Invest in solar PV</li><li>• 100% renewable energy tariff</li></ul>	<ul style="list-style-type: none"><li>• Update infrastructure for EV vehicles</li><li>• Switch to Evs</li><li>• Switch to using alternative fuels e.g. HVO</li></ul>

# OVERVIEW OF MAIN OBJECTIVES

	Buildings	Energy	Transport	Reporting & Comms
<b>1. Example</b> Set a positive example for others by reducing our own emissions 	Reduce emissions from Hart DC operational energy consumption, through energy efficiency and decarbonisation, to be carbon neutral by 2035.	Decarbonise electricity supply and increase Hart DC energy consumption from renewable sources <b>by X% by XX</b>	Transition all Hart DC fleet vehicles to ultra-low / low emissions vehicles <b>by 2035</b> .	Communicate and report the council's progress towards net zero 2035, as well as raising awareness of mitigation and adaptation measures, both internally and externally.
<b>2. Enable</b> Support action within communicates and across our partners 	Support Everyone Active to reduce their emissions from energy consumption, to be carbon neutral by 2035.	Engage with Everyone Active to increase energy from renewables <b>by X% by XX</b>	Electrify waste vehicles. Provide electric vehicle charging infrastructure across the district. Extend the Green Grid network.	Update the Council's website for Hart residents and businesses to access information on what they can do to reduce emissions <b>by xx</b> .
<b>3. Encourage</b> Ensure all efforts help to deliver ambition of carbon neutral district by 2040 	Put sustainability at the heart of our local planning processes to include requiring the delivery of energy-efficient, climate-resilient and adaptable housing.	Sharing of guidance and advice to residents and businesses on measures to improve energy efficiency.	Promote and encourage use of low emissions vehicles in Hart / benefits of active travel.	Use various campaigns to encourage behaviour change of residents and businesses to be a carbon neutral district by 2040.
<b>Co-benefits</b>	Improved air quality Reduced operational costs Local economic growth	Security of supply Reduced exposure to market price increases	Improved air quality Promotes better mental health Equity between staff	Improved staff satisfaction Enhances Council's reputation

# ACTION PLAN SUMMARY

Split into 5 main sections

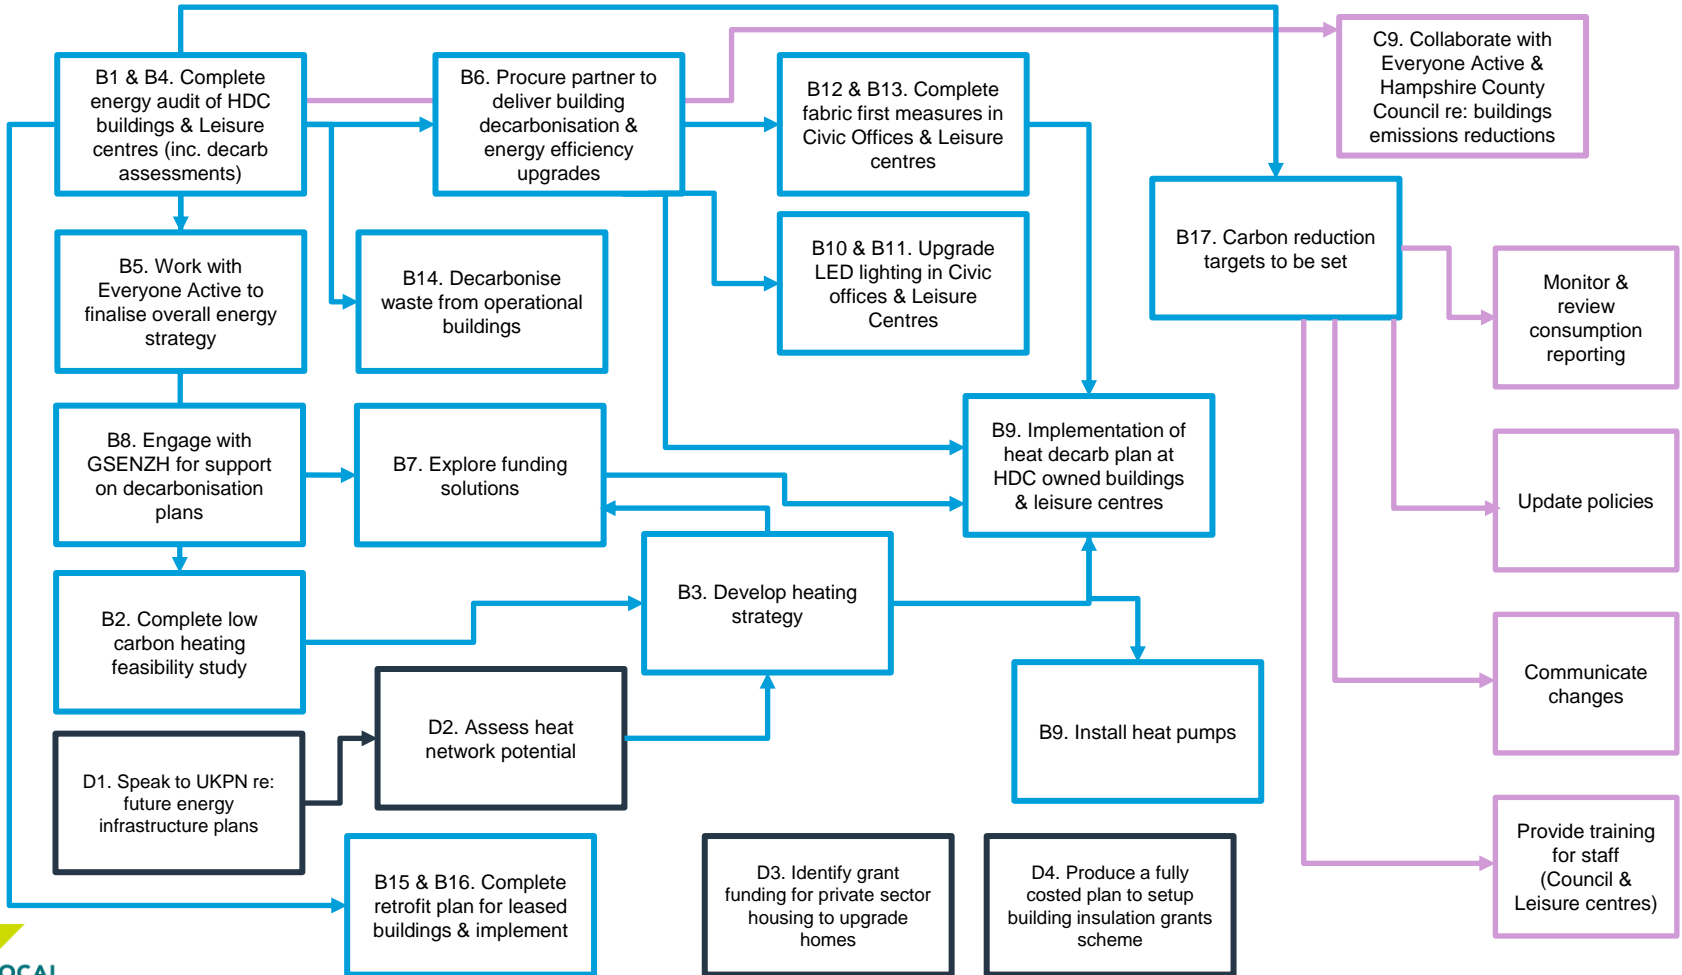

Buildings	Energy	Transport	Reporting & Comms	District Wide
<p>Biggest source of council emissions</p> <p>Focus on decarbonisation and improved energy efficiency of HDC owned buildings and Leisure Centres</p> <p>Within the Council's control</p> <p>Funding available, e.g., PSDS, Low Carbon Skills Fund</p>	<p>Linked to buildings emissions</p> <p>Focus on decarbonisation of electricity supply and increase renewables sources e.g. PV</p> <p>Within the Council's control</p> <p>Funding available, e.g. PSDS, Low Carbon Skills Fund</p>	<p>Biggest source of District emissions</p> <p>Focus on decarbonisation of vehicles and development of infrastructure required to support this</p> <p>Within the Council's control, working with key stakeholders</p> <p>Funding available, e.g. OLEV</p>	<p>The Council has a separate comms plan</p> <p>Focus on raising awareness, communicating changes, providing training, and maintaining positive relationships with key stakeholders.</p>	<p>Carbon neutral by 2040</p> <p>Initial focus is on actions within the Council's immediate control, but there are many actions the Council can have a positive influence on.</p> <p>Some of these actions fall into other categories</p>

# ACTION PLAN SUMMARY

## Categorisation to help with prioritisation

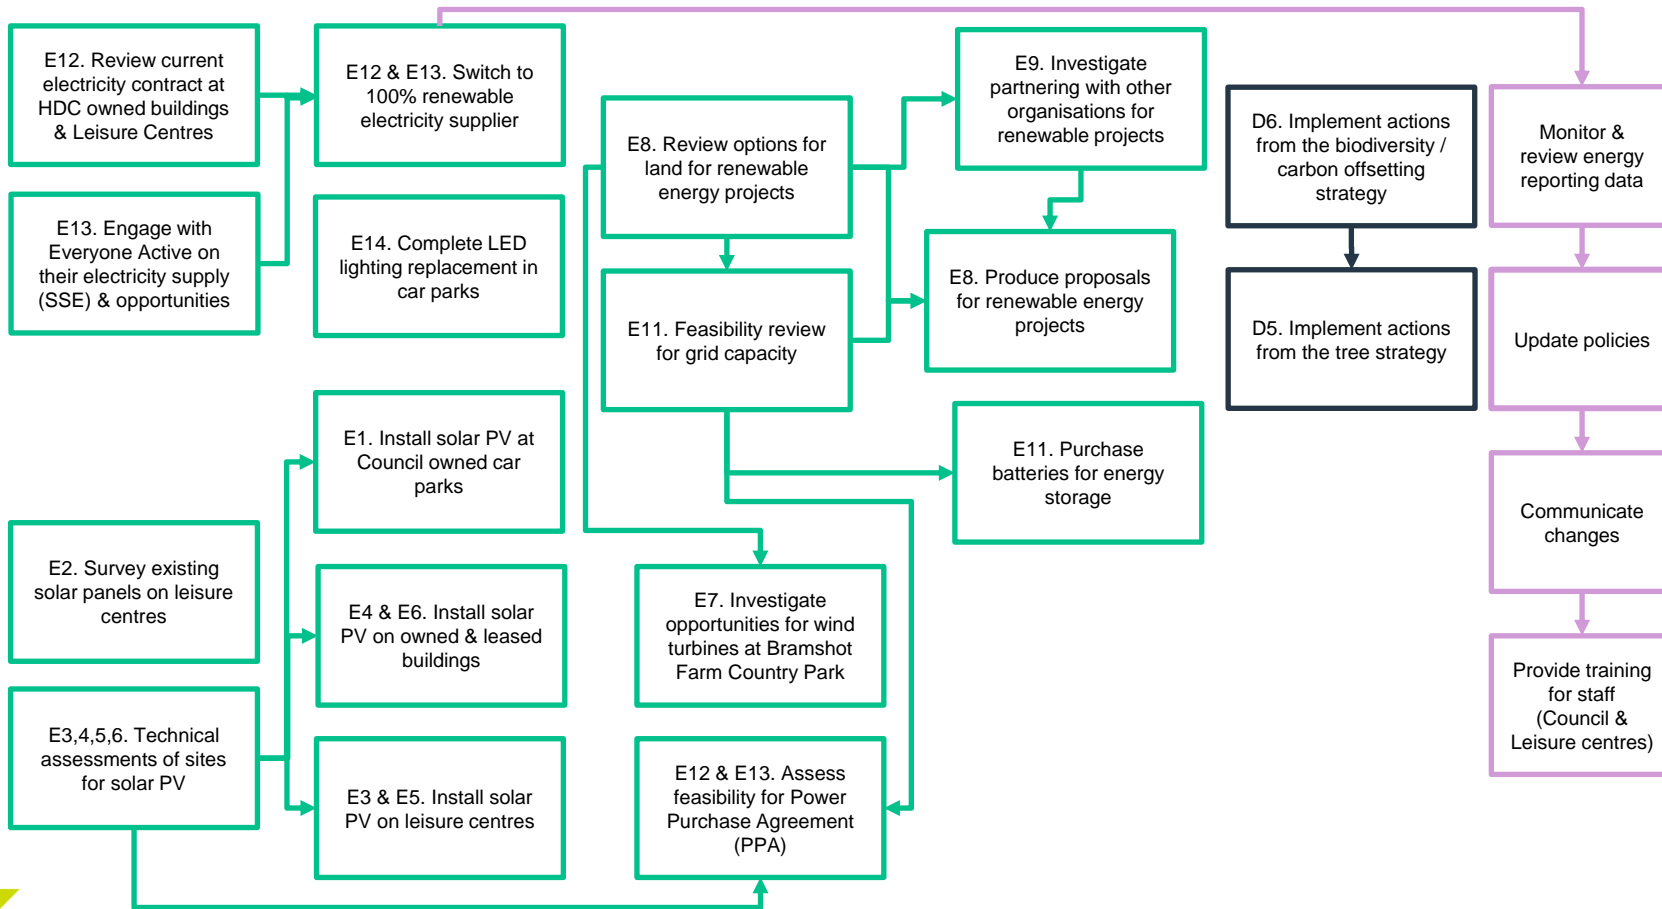

Category	Choice	Description
Timeframe	Short	Next 3 years (i.e MTFP) - takes you to 2026
	Medium	3 - 7 years (2030)
	Long	7+ (2030+ leaves 5 years until 2035 carbon neutral target)
Indicative cost	£ 10 - 10,000	£10 - £10,000
	££ 10,000 - 50,000	£10,000 - £50,000
	£££ 50k+	£50,000+
Carbon impact	Low	Low carbon reduction, <1% reduction in council's own emissions
	Medium	Moderate carbon reduction, 1 - 5% reduction in council's own emissions
	High	Significant carbon reduction, 5-10% reduction in council's own emissions
Council control	Control	Within the Council's control and has a direct impact on operational emissions (Scope 1 and 2)
	Influence	Outside of the Council's control, but in an area of influence, that will impact on scope 3 emissions and district wide
Action type	Enabling	Supports and influences others to take action / supports other actions to take place e.g., by encouraging behaviour change
	Tangible output	Output report / implementation of measures
Resource complexity	Low	Existing resource in-house
	Medium	Blend of existing and external resource
	High	Significant staff time/external resource required, multi-stakeholder involvement
